EDUCATION

Indian Institute of Technology (BHU), Varanasi

B.Tech – Computer Science & Engineering | 2027

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Probability & Statistics, Machine Learning, Discrete Mathematics.

SKILLS

Languages: C++, Python, C, SQL.

Web Development: HTML, CSS, JavaScript.

CS Fundamentals: Data Structures & Algorithms, OOP, OS, Probability & Statistics.

Tools & Frameworks: Git, Django, Numpy, Pandas, Bootstrap, VS Code.

Areas of Interest: Algorithms, Machine Learning, High-Performance Systems, Distributed Computing.

PROJECTS

AI-Powered Resume Screening & Ranking System – Python, NLP, ML.

- Implemented skills-matching and PDF parsing algorithms to automate resume analysis.
- Reduced screening time by 80% while maintaining 92% accuracy in candidate ranking.

Railway Reservation System – Django, SQLite, Bootstrap.

- Developed a full-stack booking system with train search, reservations, and admin panel.
- Designed scalable backend using Django models and improved response efficiency by 30%.

Netflix Clone – JavaScript, TMDB API, YouTube API.

- Built a responsive movie streaming platform integrating real-time API data for dynamic lists & trailers.
- Improved loading performance by 25% via optimized API calls.

Shoppie E-Commerce Website – HTML, CSS, JavaScript.

- Designed a modular, scalable e-commerce frontend for clothing products.
- Implemented product search and detail pages, enhancing navigation and usability.

ACHIEVEMENTS

- Competitive Programming: Max LeetCode Rating **1661**, solved **250+ DSA problems**.
- JEE Advanced 2023: Secured **All India Rank 11227** among 1.5 lakh candidates.
- Selected for **IIT (BHU) CSE** through JEE Advanced.

INTERESTS

- Algorithms & Competitive Programming
- Probability & Statistics Applications in Finance
- Playing Cricket (teamwork + strategy)
- Machine Learning & AI for Decision-Making
- Chess (strategy & problem-solving)
